MISSION

Dedicated to the gospel message, Dayspring Homes provides a continuum of care, which meets the ongoing needs of people with mental retardation within a Christian environment.

ENHANCING LIVES

We make a genuine difference in the quality of life of the individuals we serve and help each individual realize his or her God-given potential. With a primary focus on people with mental retardation, we are welcoming and a well known light in our community.

We teach our individuals the independent living and social skills necessary to fully participate in and integrate into their social and faith communities. Additionally, we assist families in making beneficial choices for their relatives.

A HERITAGE OF CARING

Dayspring Homes, Inc. was founded in 1991 by Sister Francis Bisland, C.P.S.. It grew out of the need to support persons with special needs as they reached young adulthood or could no longer remain at home. Dayspring Homes continues to embrace the Christian ideal of realizing the God-given potential and dignity of every human person.

Dayspring Homes provides group residential homes in several Berks County locations. This non-profit organization also offers respite care for families who have members needing care for their special needs. We offer short-term care and rehabilitation services in the community. Another service provided by Dayspring Homes is our quality day program for persons with mental/physical disabilities. Our excellent staff is trained and qualified to meet the diverse needs of our population.

Many of our residents are eligible for government funding while others are private pay. Just as all non-profits do, we welcome volunteers and donations to help provide for our needs. Dayspring Homes is licensed, certified, and insured. The Board of Directors works closely with our CEO to maintain a quality program.

“Every person has a right to be treated with utmost respect and dignity, not for anything they do, but simply for who they are.” - Sr. Francis Bisland
